

MBOHOU FILS ABOUBAKAR SIDIK

Data Engineer · MSc Cybersecurity and Data Science

Angers, France · +33 7 75 75 46 49 · sidikmbohhou@gmail.com · mfascyberdata.github.io · linkedin.com/in/sidikmbohhou

PROFILE

Data engineer with an MSc in Cybersecurity and Data Science (ESAIP) and 3+ years of IT experience across consulting, data analytics, and software development, including a six-month production data engineering internship in France. Skilled across the full data lifecycle, from ingestion and ETL to modeling, distributed processing, and BI reporting, with a complementary security background (SIEM, digital forensics, penetration testing, governance: EBIOS RM, GDPR, ISO 27001). Builds data systems that are fast, reliable, and secure by design, with measurable performance gains for both technical and business stakeholders.

EDUCATION & CERTIFICATION

Mastère Spécialisé Data and Generative AI Engineering · RNCP Level 7 Oct. 2026 – Sept. 2027
EFREI, graduate school of engineering, Paris-Panthéon-Assas University, France

- Curriculum: data architectures & platforms (data lake, lakehouse, streaming); AI & generative AI; Cloud, DevOps, DataOps & MLOps, infrastructure as code; governance, security & compliance (GDPR, AI Act); leadership.

MSc Cybersecurity and Data Science Feb. 2024 – May 2026
ESAIP, graduate school of engineering, France

MSc Technical Education, Computer Science & Engineering (first year) Jun. 2022 – Dec. 2023
IUT, Bangladesh · CGPA 3.50/4.00 · OIC scholarship

BSc Technical Education, Computer Science & Engineering Jan. 2015 – Nov. 2018
IUT, Bangladesh · CGPA 3.57/4.00 · OIC scholarship

IBM Data Engineering Professional Certificate · Coursera in progress

TECHNICAL SKILLS

Data Engineering: SQL, PostgreSQL, ETL design, data warehousing, Spark, Hadoop, MongoDB

Programming & ML: Python (pandas, scikit-learn), R, TensorFlow, PyTorch, NLP, time-series forecasting

BI & Visualization: Power BI (DAX), MyReport BE, Excel (Power Query), Matplotlib, Seaborn

Cloud & DevOps: Microsoft Azure, Docker, Git, Linux

Security & Governance: SIEM, forensics, penetration testing; EBIOS RM (ANSSI), GDPR, ISO/IEC 27001

PROFESSIONAL EXPERIENCE

Data Engineer — Final-Year Internship (PFE) · HortiTrace SAS, France Nov. 2025 – May 2026

- Migrated the ETL strategy from full reload to incremental loading (PostgreSQL, PL/pgSQL, pgAgent), cutting cycle duration from 30 min to 6 min (–80%) and volume processed per cycle by 95%.
- Designed a pre-aggregated historical-balance snapshot table, maintained through an atomic staging-rename mechanism, reducing query scan by 91% and reporting time (MyReport BE) by 83%; deployed on Azure VM.

IT Consultant · HPS International Consulting Plc, Cameroon Oct. 2020 – Aug. 2022

- Designed HR decision-support dashboards (Power BI, DAX) that halved monthly reporting time (–40%) and trained 10+ business users.
- Analyzed IT procurement data (Excel, Power Query), reducing the equipment budget by 20%.

IT Applications Analyst · Will & Brothers Consulting, Cameroon Nov. 2019 – Oct. 2020

- Optimized a vehicle-detection API (TensorFlow), raising model accuracy from 73% to 88%.
- Integrated dashboards (AdminLTE) giving clients real-time inventory tracking.

Junior Programmer (Internship) · Alshadows Technologies, Cameroon Jan. – Jul. 2019

- Designed the relational databases and SQL queries for two client-facing web applications.
- Contributed to the development of these applications and authored the functional specifications adopted by the team.

KEY PROJECTS

- Big Data Engineering:** Dockerized Hadoop/Spark cluster (HDFS, YARN, MapReduce); 20-year food-price analysis in R with Prophet forecasting.
- IoT Network Threat Detection (ML):** intrusion-detection pipeline on CSE-CIC-IDS2018 (246K flows); Random Forest, 87.9% accuracy, deployed as a Flask application.
- SIEM & Security Operations Labs:** deployed Wazuh XDR and AlienVault OSSIM/OSSEC (FIM, OpenVAS, MITRE ATT&CK detections); red team: command-injection exploit and Ligolo-ng network pivoting.
- Adversarial Machine Learning (PyTorch):** built, attacked (FGSM), and defended a CNN; attack success rate reduced by 38% with no accuracy loss.

LANGUAGES & INTERESTS

French (native) · English (B2, IELTS 6.0) · Driving licence B · Interests: football, AI, entrepreneurship
